# OPTUM360®

MedicalReferenceEngine.com
for Optum Enterprise CAC and CDI 3D

Save time and increase your coding compliance with expansive referential and regulatory content.

Trying to find the information you need to code correctly and understand complicated regulatory information is cumbersome and time-consuming — especially when you have to sift through multiple government websites. We've compiled dozens of Optum360® reference books, thousands of Medicare and Medicaid documents, and local and national Medicare policy information into one easily searchable database to provide easier and faster answers to coding reference questions within your coding and CDI workflow.

Valuable coding and CDI references — at your fingertips

- CPT® Content Module (includes CPT Assistant, CPT Changes and CPT Knowledge Base)
- AHA Coding Clinic® for ICD and HCPCS, along with the quizzes
- Stedman's Medical Dictionary
- Clinical Documentation Improvement content
- Dental Codes
- ICD-10 Essentials: Applying ICD-10-PCS Guideline
- Dr. Z's Medical Coding Series: Interventional Radiology*

You can reduce research time by saving searches or bookmarking content.

Powerful code lookup tools

MedicalReferenceEngine.com features the Optum360 CodeLogic™ search engine, which allows you to search across ICD-9 Vol. 1 & Vol. 3, ICD-10-CM, CPT® and HCPCS simultaneously by code, keyword, acronym and abbreviation. In addition, view LCD/NCD, lay descriptions, illustration and Medicare Online-only Manuals references for each code.

New features:

NEW—Coding page

Increase productivity by accessing reference content all on one page — without going from page to page, searching for the correct reference.

Links to proprietary Optum360 content and key regulatory guidelines, all the critical information you need consolidated into one comprehensive tool.

Optum360 coding guides

- Coders' Dictionary
- Coders' Desk Reference for Diagnoses
- Clinical Documentation Guidelines
- Coders' Desk Reference for HCPCS
- Coders' Desk Reference for Procedures
- Coders' Desk Reference for ICD-10-PCS
- Optum360 Interventional Radiology Guide
- Risk Adjustment Coding and HCC Guide

Optum360 hospital and post-acute

- Uniform Billing Editor
- DRG Expert
- DRG Trees: ICD-9-CM
- DRG Desk Reference
- MDC Optimizing Tips

Robust Medicare content

With so many regulatory changes, it's important to stay updated. Find answers to your Medicare-related questions with the robust library in MedicalReferenceEngine.com. Get online access to Medicare transmittals, press releases, Pub. 100 and more, spanning five years of historical information. In addition, search LCD/NCD policies for code combinations for medical necessity edits for all Medicare contractors to facilitate complete and clean claim submission and timely reimbursement.

Customized email notification alerts

There is no need to monitor websites for important changes and new regulations; just tell us which items you are interested in, and we will send you email updates daily or weekly, depending on your preferences.

Access to forms and fee schedules

Using the right form is imperative to reimbursement — but finding the right form can take time. You can access commonly used Medicare fee schedules and Optum360 forms, templates and checklists with a click of a mouse.

Additional features

- Third-party reference links — for individuals and at the organization level
- CPT® color codes — Optum360 Add-on codes to tell at a glance whether the add-on is from the AMA, CMS, or Optum360
- LCD/NCD codes list referral
- Global surgical days indicator
- Quickly search coding content within individual PDF documents
- Deleted code detail page
- Official coding guidelines at the code detail level

See how the Enterprise CAC solution is helping hospitals like yours tackle demands for efficient coding and CDI processes to meet reimbursement and quality requirements.
